STATE OF ILLINOIS  
BOARD OF HIGHER EDUCATION

**Report on Closed Institutions and Teach-out Locations in Illinois**

The Illinois Board of Higher Education (IBHE) administers the Private College Act and the Academic Degree Act, two Illinois statutes regulating the operation and degree-granting activity of private colleges and universities in the state of Illinois. IBHE Academic Affairs staff maintain accurate records of institutional authorities and review institutions to ensure compliance with relevant administrative code. Institutions must show evidence of financial health, accreditation/regulatory compliance, and integrity of program implementation. There are a variety of reasons why an institution may close including compliance issues, accreditation/regulatory actions, financial problems, and corporate/institutional restructuring. Through each scenario, IBHE Academic Affairs staff work with institutions to coordinate teach-out plans and manage the disposition of records, all in a manner to protect Illinois students and ensure compliance with administrative code. IBHE Academic Affairs staff maintain an institutional closure website to provide information to current and former students, as well as other interested parties, regarding student transcripts, federal aid resources, transfer/portability issues, and complaint procedures.
